Professional Summary

Aspiring Software Engineer pursuing a B. Tech in Computer Science with a strong foundation in Data Structures, Algorithms, Operating Systems, and Object-Oriented Programming. Proficient in Java and C, with strong problem-solving skills and a passion for building efficient, scalable software solutions. Eager to apply technical knowledge and continuously learn in a challenging software development environment.

Skills

Programming: C, Java, Python, JavaScript

Web Development: HTML, CSS, JavaScript, React, MERN Stack

App Development: Android Studio, React Native

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Docker, Postman, ngrok, VS Code, IntelliJ IDEA

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Full-Stack Development, REST APIs

Soft Skills: Problem-Solving, Self-Learning, Teamwork, Communication

Projects

Alumni Network Platform | MongoDB, Express.js, React, Node.js, HTML, CSS, JavaScript **July 2025**

- Developed a full-stack MERN web application connecting students and alumni for mentorship, networking, job opportunities, and event management.
- Implemented user authentication, role-based access control, profile management, and interactive dashboards for students, alumni, and administrators.
- Designed responsive and user-friendly interfaces while integrating RESTful APIs and MongoDB for efficient data management.

Sign Language Detection System | Python, OpenCV, MediaPipe, Machine Learning **Dec 2024**

- Built a real-time hand gesture recognition system capable of detecting and interpreting sign language gestures using computer vision techniques.
- Utilized OpenCV and MediaPipe for hand landmark detection and feature extraction, enabling accurate gesture classification.
- Improved accessibility by providing an interactive solution to assist communication for hearing-impaired individuals.

Fuel Delivery App | React Native, JavaScript, REST APIs **Dec 2025**

- Developed a mobile application enabling users to request on-demand fuel delivery through an intuitive and user-friendly interface.
- Implemented user authentication, location-based service selection, live order tracking, and secure payment workflow integration.
- Integrated REST APIs for real-time order management and delivery status updates, ensuring a seamless user experience.

Certifications

Full Stack Development Bootcamp | Sharda University **2025**

- Completed hands-on training in full-stack web development and built web applications.

Java (Intermediate) Certification | HackerRank **2025**

- Validated proficiency in Java programming and problem-solving.

Oracle Java Certification | Oracle Academy **2024**

- Covered Core Java concepts including OOP, collections, exception handling, and multithreading.

Advanced Java Certification | Oracle Academy **2025**

- Learned JDBC, Servlets, JSP, and database-driven web application development.

Data Structures & Algorithms Certification | Udemy **2024**

- Completed training in fundamental and advanced DSA concepts and problem-solving techniques.

Education

B. Tech (CSE), Sharda University	CGPA: 7.5	Aug 2023-Present
(Class XII), CBSE – Sanskrit Public School	82%	2021
(Class X), CBSE – Geeta International Public School	79%	2019
